THE
WILD
ROBOT

ACTIVITY KIT

THE STORY

The epic adventure follows the journey of a robot—ROZZUM unit 7134, “Roz” for short — that is shipwrecked on an uninhabited island and must learn to adapt to the harsh surroundings, gradually building relationships with the animals on the island and becoming the adoptive parent of an orphaned gosling.

A powerful story about the discovery of self, a thrilling examination of the bridge between technology and nature and a moving exploration of what it means to be alive and connected to all living things.

TIC-TAC-TOE

THE WILD ROBOT

With the help of a parent or guardian, cut out the tokens. Choose which character you want to be and then give your opponent the tokens of the other character. Taking turns, place one of your character tokens on an empty space on the board. The first player to place three of their character tokens in a row wins.
